SUMMARY OF ACTIVITIES (FY 2021–22)

Department of Land Resources (DoLR), Gol approved WDC-PMKSY 2.0 for the State of Assam in the Steering Committee Meeting held on 4th January 2022.

- Total numbers of watershed projects sanctioned: 29 Nos
- Total treatable area: 1.28574 Lakhs hectare
- Total project cost: Rs. 293.0028 Crores
- Total project period: 3-5 years i.e., 2021-2026

District allocation

On 25th February 2022 funds were released to districts by the state on the following heads: (i) Management cost, (ii) DPR preparation, (iii) Entry Point Activities (EPA) and (iv) Institution and Capacity Building (I&CB). The total project cost is Rs. 293.0028 crores and around 12.16 crores were released (3.9%).

Total Project Cost	Management Cost 10%	DPR	EPA	I & CB	Grand Total
2,93,00,28,400	73,25,076	2,63,70,252	5,86,00,560	2,93,00,284	12,15,96,172

Awareness programme

Nineteen districts had initiated awareness programmes from February 2022 onwards and reached out to nearly 7792 people. Information has been consolidated from SLNA and District Quarterly Progress Reports (January – March 2022).

Convergence meetings with other allied departments, Gram Sabha meetings and Exposure visits were also conducted.

Few WCDC meetings were also conducted in some districts.

PRA Meetings

PRA meetings with key stakeholders and community were organised to identify needs and priorities. Information received from 20 projects show that 12532 people participated in these exercises, held in February and March 2022.

Baseline Survey

Baseline Surveys were conducted in 11 project areas.

DPR Preparation

Nine projects had developed DPRs by March 2022.

Annual Action Plans (AAPs)

Districts had developed Annual Action Plans (AAP) for carrying forward the activities. The activities planned in the AAPs of 2021-22 were rolled over to 2022-23 and completed.

Watershed Committee (WC) Formation

Twenty-three projects had initiated Watershed Committee formation activities around end of February 2022 involving around 6310 people.

Self-Help Groups (SHG) and User Groups (UG)

Formation of SHGs and User Groups started around February 2022 by 19 projects. Around 6450 participants were sensitized and trained on formation of SHGs, UGs, etc.

Entry Point Activities (EPA)

The planning for EPAs for most district/projects were completed by March 2022, while works began in 2022-23.

1. BACKGROUND AND INTRODUCTION

Watershed management refers to the process of managing and conserving the land and water resources within a particular watershed or river basin. It is an attempt to halt land degradation and a holistic process for getting maximum production out of the land. A watershed is an area of land where all water, such as rainfall, snowmelt, and runoff, drains into a common water body, such as a river, lake, or ocean.

The goal of watershed management is to ensure the sustainable use of water resources while minimizing negative environmental impacts. It involves the coordination and integration of various activities, such as land use planning, water quality protection, flood control, erosion control, and natural resource conservation.

1.1. Integrated Watershed Management Program

The **Integrated Watershed Management Program (IWMP)** is a flagship program of the Government of India aimed at sustainable development and management of watersheds across the country. It was launched by the Ministry of Rural Development in 2009 and is implemented through the State Watershed Development Agencies (SWDAs).

The program focuses on sustainable management of natural resources, including soil, water, vegetation, and biodiversity within watersheds, emphasizes rainwater harvesting and water conservation techniques to enhance water availability within watersheds, promotes soil conservation practices to prevent erosion, improve the socio-economic conditions of rural communities by promoting sustainable livelihoods, promotes the creation of sustainable employment opportunities through watershed-based enterprises, emphasizes convergence and coordination among various departments, agencies, and programs to optimize resources and achieve holistic development outcomes and adopts a participatory approach, involving local communities, stakeholders, and user groups in planning, implementation, and monitoring of watershed development activities.

The IWMP is a comprehensive program that addresses the challenges of soil erosion, water scarcity, land degradation, and rural poverty through integrated watershed management approaches. By promoting sustainable natural resource management and livelihood enhancement, it contributes to rural development, environmental conservation, and improved quality of life for rural communities.

1.2. Watershed Development Component of PMKSY (erstwhile IWMP)

Government of India is committed to accord high priority to water conservation and its management. To this effect, **Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)** has been formulated with the vision of extending the coverage of irrigation '**Har Khet Ko Pani**' and improving water use efficiency '**More Crop Per Drop**' in a focused manner with end-to-end solution on source creation, distribution, management, field application and extension activities.

The major objective of PMKSY is to achieve convergence of investments in irrigation at the field level, expand cultivable area under assured irrigation, improve on-farm water use efficiency to reduce wastage of water, enhance the adoption of precision-irrigation and other water saving technologies, enhance recharge of aquifers and introduce sustainable water conservation practices by exploring the feasibility of reusing treated municipal waste water for peri-urban agriculture and attract greater private investment in the precision irrigation system.

PMKSY has been conceived amalgamating ongoing schemes viz. Accelerated Irrigation Benefit Programme (AIBP) of the Ministry of Water Resources, River Development & Ganga Rejuvenation (MoWR, RD&GR), Integrated Watershed Management Programme (IWMP) of the Department of Land Resources (DoLR) and the On-Farm Water Management (OFWM) of

Department of Agriculture and Cooperation (DAC). The scheme is implemented by Ministries of Agriculture, Water Resources and Rural Development.

Watershed Development under Pradhan Mantri Krishi Sinchayee Yojana involves comprehensive planning and implementation of measures to conserve soil, water, and other natural resources within a specific watershed area. Its primary objective is to achieve a balance between socioeconomic development and the sustainable use of water resources while maintaining ecological integrity and resilience within the watershed using Rainwater Harvesting, Soil and Moisture Conservation, Afforestation and Horticulture, Livelihood Support, Integrated Farming Systems and Public Participation.

The implementation of watershed development under PMKSY is carried out by various agencies and institutions at the national, state, and local levels. These include the Ministry of Agriculture and Farmers Welfare, State Departments of Agriculture, State Watershed Development Agencies, and Non-Governmental Organizations (NGOs). The initiative provides financial support, technical assistance, and capacity building to ensure successful implementation of watershed development projects.

The Centrally Sponsored Scheme (CSS) 'Integrated Watershed Management Programme' (IWMP) (2009-10), was amalgamated as the Watershed Development Component of PMKSY (WDC-PMKSY) in 2015-16. The continuation of WDC-PMKSY has been allowed by the Government of India on 15.12.2021 as 'WDC-PMKSY 2.0' for the project period of 2021-2026.

1.2.1. Objectives of PMKSY 2.0

The vision of PMKSY- WDC 2.0 is to accelerate the economic growth rate of rainfed areas agriculture. At the watershed level, the development plan is guided by the need to achieve higher income for farmers, expanded livelihood options for landless, equity in the distribution of benefits, and community ownership and management.

The objectives of watershed development projects are to improve productive potential of rainfed / degraded land through integrated watershed management; to strengthen community based local institutions for promotion of livelihoods & watershed sustainability, and to improve the efficiency of watershed projects through cross learning and incentive mechanism.

- At macro - level, the vision of WDC-PMKSY 2.0 projects is to accelerate the economic growth rate of agriculture in the less endowed rainfed areas of the country. Moreover, this should be achieved by adopting harmony with ecological principles of development for ensuring sustained transformation of economy and ecology. The guiding principles shall be a better Economy, Ecology and Equity in the rainfed regions of the country.
- At watershed level, the development plan shall be guided by the need to achieve higher incomes for farmers, expanded livelihood options for landless, equity in distribution of benefits, community ownership and management, and ecologically sustainable action plan.

Table 1: Key Objectives of PMKSY 2.0

Enhancing economic growth of village community dependent on watershed by:	Ecological restoration and sustainable management of natural resources across the project area through:	Improving the economic and social conditions of the resource poor, asset-less, differently-abled and women in particular through:
a) Securing production and farmers income against climate variability and its	a) Sustained community action in management of natural resources/assets	a) Shared and equitable access to the land, water

Enhancing economic growth of village community dependent on watershed by:	Ecological restoration and sustainable management of natural resources across the project area through:	Improving the economic and social conditions of the resource poor, asset-less, differently-abled and women in particular through:
risks of drought spells through diversification of crop systems & animal husbandry, and varied livelihood portfolios; efficient water harvesting and retention of rainwater in soil profile; and entitling all project members to ground and surface water resources for life saving irrigation on equitable basis.	such as groundwater, soil, community resources, etc. by way of building community organisations like User Groups (UG), and transferring maintenance responsibilities to them. Further, supporting UGs with regulatory norms, that are institutionalized through the Gram Panchayats.	and biomass resources developed.
b) Improving intensity and productivity of various crops, livestock, fisheries and biomass production systems through optimal, integrated, sustainable and efficient use of natural resources in project areas.	b) Promotion of simple, easy to use and affordable technologies and practices, that builds upon local knowledge and available materials.	b) Greater access to income generating opportunities.
c) Recognising the stake of non-land holding project members, and promoting alternate livelihood opportunities.		c) Facilitating co-option of members of these categories in various community institutions i.e., FPO, User Groups etc.
d) Building an ecosystem of enterprises for facilitating efficient scales of operations, access to credit, and market linkages; knowledge sharing; and resource convergence led by vibrant member managed farmers institutions.		

1.2.2. Planning and Implementation

The vision of the new generation of watershed development projects will be achieved through Participatory Watershed Development Plans (PWDP) prepared by the watershed community

with technical guidance from the WDTs. The following constitute broader components of the watershed development plan:

- i. Ecosystem Regeneration and Production
- ii. Natural Resources Management and Governance
- iii. Services & Livelihoods

These three are organically linked and relate to development, management and governance of natural resources. The plan should focus on effective and efficient use of natural resources to realize better income for the rural people. In hilly regions, participatory approach should be adopted for springs rejuvenation with meticulous planning, involving communities in twin arrangements in upper and lower reaches.

At project level, WDC-PMKSY 2.0 envisages a bottoms-up approach of implementation by involving the community through community-based organizations such as Self-Help groups, user groups and watershed committee besides project implementing agencies (PIAs) from both government or non-government organizations and the watershed development team. These groups need continuous monitoring for effective implementation of the project.

- The organizational learning processes need to be facilitated through the observations of an external agency to assist the project functionaries at various levels.
- Impact evaluation of watershed projects in particular has to be made using the state of art technology such as Remote Sensing, GIS and GPS for unbiased and reliable assessment in terms of changes in biophysical parameters which requires specific skills plus expertise.
- In WDC-PMKSY 2.0, process monitoring along with documentation needs to be undertaken to confirm that project activities are being implemented in conformity with the New Generation Project WDC-PMKSY 2.0 Guideline and the decisions of the State Level Nodal Agency (SLNA) thereon.
- Each project being implemented under WDC-PMKSY 2.0 requires timely and appropriate information on its performance, measured by combining both qualitative and quantitative performance indicators.
- It is imperative that the MEL&D component under WDC-PMKSY 2.0 has to add value to the project during the course of its implementation and as well as for achievement of expected outcomes and impacts.

2. WDC-PMKSY 2.0 – ASSAM

In Assam, the Soil Conservation Department, Government of Assam is the implementing agency (IA) for the Watershed Development Component - Pradhan Mantri Krishi Sinchayee Yojana (WDC-PMKSY) through the State Level Nodal Agency (SLNA), funded by the Department of Land Resource (DoLR), Govt. of India.

Department of Land Resources (DoLR), GoI approved WDC-PMKSY 2.0 for the State of Assam¹ in the Steering Committee Meeting held on 4th January 2022.

- Total numbers of watershed projects sanctioned: 29 Nos
- Total treatable area: 1.28574 Lakhs hectare
- Total project cost: Rs. 293.0028 Crores
- Total project period: 3-5 years i.e., 2021-2026

3. ACTIVITIES UNDERTAKEN IN FY 2021-22

Funds were released in February 2022, hence activities for this FY started after that. However, few preparatory activities started before that.

3.1. Awareness Programmes

Nineteen districts had initiated awareness programmes from February 2022 onwards and reached out to nearly **7792** people. Information has been consolidated from SLNA and District Quarterly Progress Reports (January – March 2022).

- **Darrang** – 5 community awareness programmes on WDC-PMKSY 2.0 were conducted in 36 villages, including 595 participants.
- **Dhemaji** - 4 capacity building sessions were held on 'Watershed Management Training', along with GIS Application and Data Entry for WDT and Department Staff. Exposure Visit for WDT and Department Staff was also conducted.
- **Dima Hasao** - 16 community awareness programmes were held, with the focus being 'Discussion on the Activities of the WDC-PMKSY Project'. A total of 382 people attended, with 210 of them being women.
- **Golaghat** - 27 community awareness programmes were covered on the topic 'Project Formulation', with 600 people participating, including 280 women.
- **Hojai** - 10 community awareness programmes on the topic 'Discussion on the Activities of the WDC-PMKSY Project (NRM, Production System, and Livelihood)' were held in 30 villages, with 926 participants, 490 of whom were female.
- **Kamrup** - 23 community awareness programmes on the topic 'Pamphlet Distribution, Wall Posters, Mass meetings at the project level, village, mass meeting at village level, mass meeting at MWS levels' were held, with 200 participants, 80 of whom were female.
- **Karbi Anglong (Kohora)** - 6 awareness sessions on the topic of 'Project formulation' were attended by 230 participants, 148 of whom were female.
- **Majuli** - 2 awareness activities on community programmes on the topic 'NRM, Livelihood, Production System, etc.', covering 21 villages, with 440 members participating, of which 260 were female.
- **Morigaon** - 12 awareness programmes on the topic of 'Discussion on the Activities of WDC-PMKSY Project (NRM, Production System & Livelihood)' spanning 24 villages were attended by 610 persons, of which 375 were female.
- **Nagaon** - A total of 870 members, 415 of whom were female, participated in 10 awareness-raising activities based on the topic of 'Discussion on the Activities of the WDC-PMKSY Project (NRM, Production System, and Livelihood)', encompassing 30 villages.
- **Udalguri** - 5 community awareness programs on the topic 'Awareness of the project' were held, spanning 31 villages and involving 50 participants, 10 of whom were female.

Source: SLNA and District QPRs

Convergence meetings were organised with other allied departments in some of the districts during this quarter.

- In Dhubri and Barpeta NRM- G Meetings with the members of Gram Panchayat were held to prepare the overall Development Plan; 707 people participated in the meetings.
- In Dhemaji 2 convergence meetings were held.
- In Kamrup 1 convergence meeting was held to prepare the development plan, formation of SHGs and few other aspects.

Exposure Visit – Dhemaji organized an exposure visit in March 2022 with 85 participants.

Gram Sabha Meeting – Both projects in Karbi Anglong (Kohora and Diphu) organized Gram Sabha meetings in February 2022 with 250 participants.

3.2. WCDC Meetings – District Level

Goalpara, Hailakandi and Kamrup completed the WCDC meetings with District Administration by March 2022, in which 75 people participated. Barpeta, Cachar, Hojai, Kokrajhar, Morigaon and Nagaon finished these meetings by April, around 154 people attended these meetings.

3.3. PRA Meetings

PRA meetings with key stakeholders and community were organised to identify needs and priorities. Information received from 20 projects show that 12532 people participated in these exercises, held in February and March 2022. The findings from the PRA were used for DPR preparation.

- **Baksa** - 23 PRA meetings were organised in 23 villages with 1014 male and 452 female participants.
- **Chirang** - 5 PRA meetings held in 31 villages with 250 male participants and 290 female participants.
- **Darrang** - 36 PRA meetings held covering 36 villages with 780 participants.
- **Dhemaji** - 3 PRA meetings held in 35 villages with 270 male and 80 female participants.
- **Dima Hasao** - 10 PRA meetings held among 10 villages attended by 392 male participants and 261 female participants respectively.
- **Golaghat** - 27 PRA meetings held in 27 villages with 180 male participants and 120 female participants.
- **Hojai** - 12 PRA meetings held covering 16 villages with 468 male participants and 255 female participants.
- **Kamrup** - 23 PRA meetings held with 690 male and 460 female participants covering 23 villages.
- **Karbi Anglong (Kohora)** - 6 PRA meetings organised covering 6 villages including 48 male and 68 female participants.
- **Majuli** - 21 PRA meetings held covering 21 villages with 1500 female participation and 1200 male participation.
- **Morigaon** - 10 PRA meetings were held in 10 villages among 392 male and 261 female participants.
- **Nagaon** - 12 PRA meetings covering 16 villages including 255 female and 468 male participants.
- **Udalguri** - 10 PRA meetings held in 13 villages with 40 male and 10 female members.

3.4. Baseline Survey

Baseline Surveys were conducted in 11 project areas. Karbi Anglong (Diphu) initiated activities early, around 30th January 2022. The other districts to complete this activity by March 2022 were – Darrang, Dhemaji, Dhubri, Dibrugarh, Golaghat, Karbi Anglong (Kohora), Lakhimpur, Nalbari, Sonitpur and Tinsukia. The activity took around 15 days to complete. Dhemaji also conducted village and works surveys. Karbi Anglong (Kohora) conducted PRA exercises with the Baseline Survey activity. Only 3 projects mentioned about the total number of people that participated in the activity – 468.

Table 8: Baseline Survey

District	Level	No of participants	Start Date	End Date
DARRANG		15	02-02-2022	28-03-2022

3.5. DPR Preparation

Nine projects have developed DPRs within February, March 2022. The activities included, approval from Gram Sabha and WCDC, including delineation of project area boundaries, year-wise actions plan indicating planned activities/works to be carried out, existing production systems, potential risks and benefits that will be generated from various interventions through consultations with the farmers, time schedules, hydro-geological assessment along with aquifer profile and its recharge potential, etc.

Table 9: DPR Preparation

District	Level	No of participants	Start Date	End Date
BAKSA				
DARRANG		10	02-02-2022	28-03-2022
DHUBRI	WCDC		10-02-2022	30-03-2022
DIBRUGARH			10-02-2022	30-03-2022
GOLAGHAT			30-01-2022	25-03-2022
KARBI ANGLONG (DIPHU)			28-01-2022	30-03-2022
KARBI ANGLONG (KOHORA)		80	19-02-2022	30-02-2022
NALBARI		60	07-02-2022	10-02-2022
TINSUKIA			10-02-2022	29-03-2022

Source: SLNA and District QPRs

The key aspects of the DPR are as follows:

- Profile of the Watershed Project (District) – need and scope for watershed development, previous watershed projects in the area
- General description of project area – location, land details, agro-climatic conditions, physiographic features and watershed characteristics
- Baseline information – demographic, socio-economic, community institutions, land-use patterns, livelihoods, water resource management
- Institution Building and Project Management – SHG, UG, WC, WDT, PIA and Convergence Plan
- Action Plan – Details of NRM activities and engineering structures - (i) soil and moisture conservation structures, (ii) water harvesting structures and (iii) vegetative covers
- Capacity Building Plan
- Implementation and Budget
- Consolidation and Completion
- Expected outcomes – monitoring

All amounts (in Rs)

3.6. Preparation of Annual Action Plans (2021-22)

Districts had developed Annual Action Plans (AAP) for carrying forward the activities. Most AAPs were for NRM-G activities, while some also had livelihood, NRM, Institution and Capacity Building activities.

The activities planned in the AAPs of 2021-22 were rolled-over to 2022-23 and completed.

3.7. Watershed Committee Formation

Twenty-three projects had initiated Watershed Committee formation activities around end of February 2022 involving around 6310 people.

In **Dhemaji** 11 capacity-building sessions were organised for MWS on Watershed Management Training, Agronomic Practises for WC members, Village Level Workers, Animal Husbandry WC members, Horticulture Plantation WC members, Marketing of Produced Goods and Market Links.

3.8. SHGs and UGs

Formation of SHGs and User Groups started around February 2022 by 19 projects. Around 6450 participants were sensitized and trained on formation of SHGs, UGs, etc.

Table 12: Training details for User Groups (UGs) and Self-Help Groups (SHGs)

District	Level	Participants	Particulars
BONGAIGAON	WC	98	Formation of User Group

Source: SLNA and District QPRs

Darrang – SHG sensitization sessions were conducted in 36 villages, including 61 participants. The topic of discussion for SHG sensitization included ‘cultivation, poultry, plantation, machinery usage’. 5 programmes to raise awareness for user groups were held in 36 villages, involving 60 participants, 5 of whom were female.

Dima Hasao - 10 villages were covered with SHG sensitization comprising 292 participants, 204 of them were female.

Hojai - 6 SHG sensitization programmes on ‘SHG formation’ were held in 6 villages with 325 participants, 285 of whom were female.

Kamrup - 36 SHG awareness programmes on ‘SHG Formation’ were held, with 250 participants, 100 of whom were female. In addition, among user groups, a single awareness training on ‘UG Formation’ was held with 200 participants, 80 of whom were female.

Karbi Anglong (Kohora) - 47 SHG sensitization / awareness sessions encompassing 11 villages were held, with 517 participants, 495 of them were female. Among the user groups, 15 awareness campaigns on ‘UG Formation’ were conducted in 11 villages, with 135 participants, 17 of them were female.

Majuli - SHG sensitization with user groups on the topic ‘NRM, Livelihood, Production System, etc.’, covering 21 villages was held with 440 members participating.

Morigaon - 10 villages conducted SHG sensitization programmes with an emphasis on ‘SHG Formation’, with 292 participants of which 204 were female.

Nagaon - 265 participants, 240 of them females, took part in 5 SHG sensitization awareness activities covering 5 villages on the topic of 'SHG Formation'.

Udalguri - 10 SHG sensitization sessions were held in the quarter on the topic 'Awareness about the initiative', covering 31 villages involving 50 persons, 10 of whom were female. 5 awareness sessions were held with User Groups encompassing 31 villages on the topic 'Awareness on project implementation', with 50 participants, 10 of whom were female.

3.9. Entry Point Activities (EPA)

A range of Entry Point Activities (EPAs) were planned by each project. Although they could not be started in the said FY, but were completed by the FY 2022-23. The EPAs were created/undertaken based on the needs of the local community, with the aim of establishing trustworthiness of the Watershed Development Team (WDT), rapport building with the Village Community and gain their confidence towards people-centric project development and Community Mobilization. PRA exercises were conducted for identifying those activities which could be taken up as Entry Point Activities based on the urgent needs of the community.

Some of the most common EPA are as follows:

Districts	(Broad) EPA
Baksa	Construction, Renovation
Barpeta	Pump, Community Structure, Shed
Bongaigaon	Culvert, Drainage Channel, Pump, Community Structure
Cachar	Culvert, Village Road, Pump
Chirang	Earth-filling, Solar Light, Culvert, Renovation
Darrang	Community structure
Dhubri	Shed, Boundary, Solar light, Pump, Renovation
Dibrugarh	Construction, Solar light, Culvert, Boundary
Dima Hasao	Village road, Water structure, Community structure
Goalpara	Shed, Toilet, Pump
Golaghat	Community structure, Boundary, Culvert
Hailakandi	Culvert, Pump, Ring well
Hojai	Construction, Renovation
Jorhat	Construction, Renovation, Toilet, Culvert, Tubewell, Horticulture plantation
Kamrup	Community structure, Pump, Boundary, Toilet, Shed, Ring well
Karbi Anglong (Diphu)	Water structure
Karbi Anglong (Kohora)	River training, Water structure, Ring well
Kokrajhar	Construction
Lakhimpur	Construction, Renovation
Majuli	Construction
Morigaon	Construction, Boundary

Districts	(Broad) EPA
Nagaon	Construction, Shed, Beautification
Nalbari	Construction, Solar light, Roadside plantation
Sonitpur	Community structure, Roadside plantation, Renovation, Ring well, Toilet
Sivsagar	Construction, Renovation, Boundary, Shed, Culvert
Tinsukia	Culvert, solar Light, Beautification
Udalguri	Water structure, Land development
West Karbi Anglong	Ring well, Water structure, Village Road

Source: SLNA

Some of the works undertaken under EPA during this period are shown below:

Culvert - Bongaigaon

Community Pond, Barpeta

Construction of Resting Shed, Barpeta

Boulder Revetment, Karbi Anglong (Kohora)

Community Pond, Baksa

Resting Shed- Dhubri

Resting Shed, Dhemaji

Tara Pump, Kamrup

4. CONCLUSION

In year FY 2021-22, since funds were released in last week of February 2022, hence only some preparatory works got started which included entry point activities, formation of community-based organizations and watershed committees, capacity building, PRA, Annual Action Plans, DPR preparation etc. in some districts.

The progress in this financial year built a foundation upon which new strategies were build, higher benchmarks were set-up and fresh aspirations were embraced. The progress mapped in this financial year, marked the beginning of a new phase.
